

Mental Health Foundation

in partnership with

Glasgow City Parents Group and Glasgow City Council

Working together to increase the
representation of refugee and asylum-
seeking communities on Parent Councils

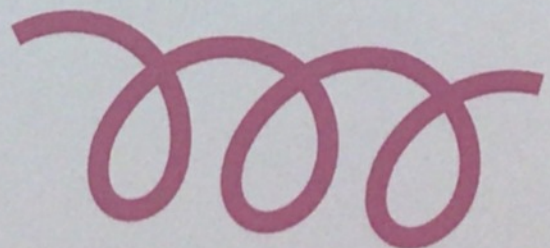

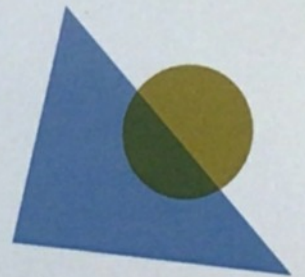

Mental Health Foundation (MHF) is keen to work closely with parents from refugee and asylum-seeking communities and Parent Councils to promote and empower more people to participate on Parent Councils at their local school.

We can provide free support and training for both Parent Councils and parents who would like to take part.

If you think your Parent Council could benefit from having more diverse voices, please contact Mahdi Saki at MHF, Programme Development Officer (Refugees and Asylum Seekers):
